Victor--

Thank you for sending the attachment. Unfortunately I will not be able to attend the meeting today. However, I am very interested to hear how your conversation goes today and whether Shell appears amenable to implementing your recommendations or whether they are hesitant. I look forward to being in touch soon.

Yes, I don't see a problem with that. We are supposed to be coordinating with EPA.

It is the right number. I left him a message. Thanks.

Is it OK to cc a copy of Misty and my recommendations to EPA for his awareness?

Adam Freedman (415) 972-3845. The last digit looks like a five on the sign-in sheet, but it could be a different number. Let me know if this number doesn't work.

Yes, the meeting is still on. Misty indicated to me that she would attend. I don't believe the EPA was going to attend this particular meeting.
